Andhra Pradesh

Dear Sir

Sub: Request for Allotment of Land to MSME Manufacturers in Nakkapalli Bulk Drug Park

Greetings from the **Bulk Drug Manufacturers Association of India (BDMAI)!**

We are a national association representing the manufacturers of Bulk Drugs across India. Our membership includes leading pharmaceutical companies such as Aurobindo, Dr. Reddy's, Hetero, Laurus Labs, MSN Group, Natco, Lupin, among others. While several large-scale industries are part of our Association, the majority of our members belong to the MSME category.

We are pleased to note the significant progress being made in the establishment of the Bulk Drug Park at Nakkapalli, Visakhapatnam spread across about 2000 acres. We also appreciate the various incentives being offered to the industry for setting up bulk drug manufacturing units in this park. It is understood that the process of land allotment is likely to commence from November 2025.

Through this letter, we humbly request your good office to kindly reserve a portion of land in the Nakkapalli Bulk Drug Park exclusively for MSME manufacturers. As mentioned earlier, a majority of our members belong to the MSME category and are currently facing significant challenges in securing suitable land to expand their manufacturing capacities, despite strong domestic and international demand for their products. Such a reservation would enable interested MSME units to obtain land in a fair and supportive manner, without having to compete on unequal terms with large-scale companies.

We would be most grateful if this request could be considered favorably. Your support in this regard will go a long way in encouraging the MSME sector, which continues to play a pivotal role in employment generation and the overall growth of the Indian economy.

Thanking you,

Yours sincerely,

CH AP Rameswara Rao
National President
