

Dear Sir

**Sub: Block Your Diary – Seminar on “AI & Digitalization in Bulk Drug Manufacturing”  
– 6th December 2025, Hyderabad**

Artificial Intelligence (AI) and Digital Technologies are rapidly transforming industries across the globe. The Bulk Drug sector, which is experiencing increasing global competition, must continuously adopt these advanced tools to stay ahead. The integration of AI-driven solutions presents tremendous potential to enhance process efficiency, strengthen GMP compliance, boost R&D productivity, and enable faster, data-driven decision-making.

In this context, BDMAI is pleased to announce a **Seminar on “AI & Digitalization in Bulk Drug Industry”**, scheduled on **6th December 2025** at **Hyderabad**. The seminar will cover the following key topics:

- **Automation in Bulk Drug Industry**
- **Harnessing Artificial Intelligence for Smarter R&D in Bulk Drug Manufacturing**
- **Leveraging AI for GMP Excellence in Bulk Drug Manufacturing**

Renowned industry leaders, technology specialists, and researchers will share their expertise and insights during the sessions. Detailed programme information will be shared shortly.

MDs / CEOs and professionals from Production, QC & QA, Engineering, Maintenance, R&D, and related functions will find this seminar highly beneficial.

We request all members to **block their diary** and make it convenient to attend this important event.

With regards,

M Roja Rani

Executive Director
