Dear Sir

Sub: Proposal to organize a Training Programme on ESG & EcoVadis

BDMAI, in association with Oren, is planning to organize a **free, in-person training programme on Environmental, Social and Governance (ESG) and EcoVadis** for its member companies in Hyderabad.

With increasing demands from global customers for EcoVadis ratings, ESG reports and related sustainability disclosures, the proposed training is intended to help member companies understand these requirements and prepare to meet the expectations of their customers.

To ensure that the programme addresses the specific needs of our members, including relevant topics and practical case studies, we request interested member companies to share their requirements and suggestions by completing the following form:
